ABOUT US

Sankalp is an organisation dedicated to the development of disabled. Sankalp is an alternate centre that provides Education to students with learning disabilities across all ages. We do this through individually tailored teaching that addresses each child's separate handicap .Sankalp aims to empower special children with knowledge, skills and attitudes that enables them to face personal and professional challenges confidence. Our teaching program is tailored to help these children go beyond their learning disability, complete their education and grow into positive and contributing citizens.
